**Business Profile:** Since its founding in Bangalore, India in 2018, LinesGraph has become a trusted firm in floor plan designs. Linesgraph has more than 10 years of experience in this industry and well versed in creating state-of-the-art 3D visualizations of your home and properties.

The company uses advanced technologies and tools while designing the floor plans to view the interior structure of homes and properties. The company has a dedicated team of professionals who are capable of creating floor plans in such a way that the output attracts the potential buyers instantly which induce them to buy the real estate properties.

Floor plans are useful in orchestrating your space and furniture plan for rooms and houses. Floor plans are profitable gadgets that give land buyers an understanding of the property's exact structure.

They rely upon the pending purchasers to get an idea as for the number of rooms, their arrangement, size of each room, Floor plan gives you a fowls eye point of view in general structure of the house, lodge or office.

Floor plans are essential when planning and building a home. A Professional floor organizer can extend the delight in the home by making a charming stream among spaces and can even form its resale regard.

## Our Vision

A global leader in floor designing- our vision provides us with a feeling of guidance and goal. It catches our yearning of being the best in all that we do. It is the reason for what we as a whole rely on as one organization. Our vision and our qualities control the decisions and choices our workers make each day.

- Through our high expertise skills and industry knowledge, we have earned thousands of happy customers and users all over the world.
- We are also proud to announce that we have closely worked with different customers across several countries and gained more popularity among our audience.
- Our Floor plan design services will be very helpful for thousands of small, medium-sized and large businesses, agents, resellers, designers, and contractors have chosen Linesgraph to power their floor plan and home design needs.

## **Strategy**

Our system is based on the establishment of our corporate qualities and will drive our fruitful advancement in the coming a very long time so as to accomplish our long haul vision for LinesGraph: to turn into a worldwide innovator in floor design planning and innovation.

So as to guide the focal point of the whole association toward our procedure and guarantee its effective execution, we have characterized three vital needs: Outperform – Globalize – Simplify.

- The reason for our technique was an itemized investigation of major long haul market patterns. Our main motive is to provide unique, innovative floor plan designs to our customers globally.
- We have dedicated team of professionals who are capable of creating floor plans in such a way that the output attracts the potential buyers instantly which induce them to buy the real estate properties.
- We always strive hard to give the exceptional, innovative and user-friendly floor plan designs which can easily attract your potential buyers.

## **Financial Goals 2019**

We have characterized goal-oriented money related focuses for our organization. By 2019, LinesGraph means to develop deals to 20 billion dollars, of which 10 billion dollars will originate from developing markets. These budgetary targets depend on natural development, including consistent portfolio enhancement, that is, little and medium-sized acquisitions just as divestment or cessation of nonstrategic exercises. Potential significant acquisitions or divestments are not incorporated with our money related targets.
